Angle plug Uni-Schuko 16A, 230V, white

Marka: **Orno** | Symbol: **OR-AE-13305/W** | Ean: **5908254848193**

PRODUCT DESCRIPTION

The angle Uni-Schuko plug is a practical solution for connecting electrical appliances.

It works with two earthing systems - Schuko and French standards (2P+E). The connection using screw terminals allows to easily connect a cable of the appropriate length to the plug.

The plug is made of high-quality plastic (PC). Suitable for a rated voltage of 230V and a rated current of 16A.

ORNO GROUP Sp. z o. o. All rights reserved.

For use in dry areas (IP20). White colour.

The product is available also in black.
