

StreetPole MAX 5m black street lighting pole

(Product ID: 927)

Model name: StreetPole MAX 5m

Overall height: 470 cm

Diameter of pole base: Ø114 mm

Top diameter of the pole: Ø76 mm

Diameter of the column finial: Ø60 mm

Column wall thickness: 2 mm

Dimensions of the mounting base: 220 x 220 mm

Thickness of the mounting base: 10 mm

Mounting hole spacing: 180 x 180 x 400 mm / M14

Inspection hole: yes

Degree of protection: IP54 (for pole recess)

Material: q235 steel

Housing color: black (RAL 9011)

Corrosion protection: zinc, powder paint

Unit packaging dimensions: 105 x 24 x 23 cm

Unit package volume: 0,058 m³

Quantity per pallet: 24 pcs.

Weight: 20 kg

SKU code: 48108

EAN code: 5906647991051

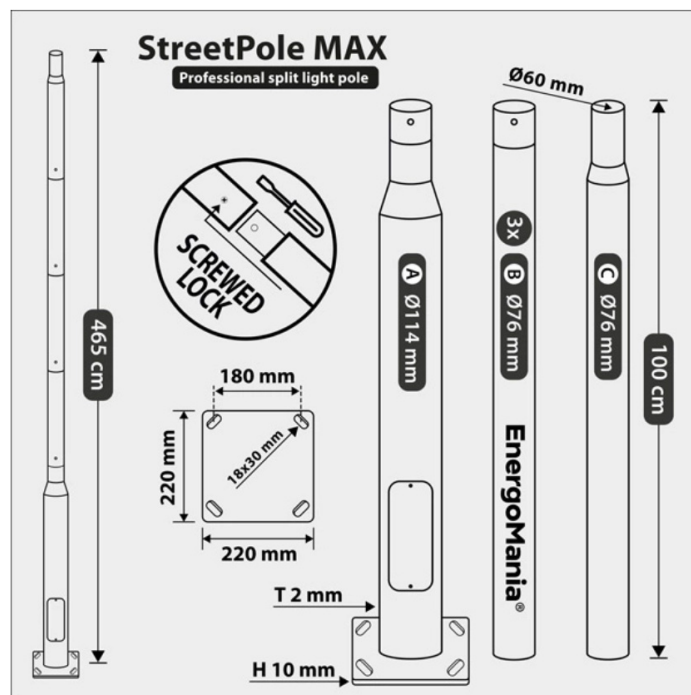

StreetPole MAX - a lighting pole that will fit in your car!

Explore **StreetPole MAX** from **EnergoMania®** - innovative split lighting masts. Unique, **modular construction** is based on several meters long segments, made of high quality **q235 steel**, **protected by a layer of zinc coating** and matte **black powder paint** (RAL 9011). StreetPole combines unparalleled durability with modern design. Thoughtful design solutions not only guarantee **speed of assembly** but also **ease of transport** which allows for significant **time and cost savings** when implementing projects.

MAXimal - heavy loads

Mast **StreetPole MAX** has a sturdy construction of 2mm thick wall tubing (set weight **20kg** 🏋️). It will hold large streetlights and flags **up to 8 meters high**. A complete pole consists of:

- 1 Lower **mounting base 220x220x10 mm** with holes for M14 screws (spacing **180x180 mm** compatible with **ready-made foundations B-50** 🏗️).
- 2 Post **A** diameter **Ø114 mm** with **inspection window** and internal **m6 mounting screw** (for DIN rail/fuse box/grounding).
- 3 Central **sections B** Ø76 mm - is a component that allows **extension of pillar by additional segments**.
- 4 End pipe **C** diameter **Ø76 mm** with **reduced finial to Ø60 mm** - typical size of holders most street lamps. Cutting the constriction allows you to mount park lamps with a socket **Ø76 mm diameter**.
- 5 Included **allen** **segment locking screws**, **wrench** and **post hole plug C**.

Modular - easy to transport and assemble

- ✓ **3/4/5 meters** 📏 - thanks to three elements **B** in the package, the StreetPole MAX mast is freely configurable. ✓ **One package** 📦 - complete pole comes in a 100 cm long cardboard box - **fits in a passenger car** and on a transport pallet.
- ✓ **Low installation cost** 🛠️ - pole will be installed by one person (✗ no need to rent heavy equipment, ladder).
- ✓ **SCREWED Lock** 🔑 - connecting StreetPole MAX segments by inserting **C** ➡ **B** ➡ **A** and locking with the supplied screws.

↓ A range of additional mounting accessories:

- ➡ concrete anchors **PoleHolder 16x16 cm**
- ➡ street lamp booms **StreetGrip**
- ➡ adjustable holders **StreetHolder**
- ➡ floodlight mounts **TopGrip**
