FAST CHARGING

The R10 car charger splitter is equipped with Quick Charge 3.0 technology, enabling significantly faster power delivery to your devices. With three USB-A ports and two USB-C ports, it allows you to charge multiple devices at the same time - such as smartphones, tablets, or navigation systems - without compromising performance. In addition, the device features PD 35W and PD 45W outputs integrated into a practical, retractable cable, providing even faster charging when needed. Even power distribution ensures smooth, reliable, and convenient use of all connected devices on every journey.

xblitz
R10

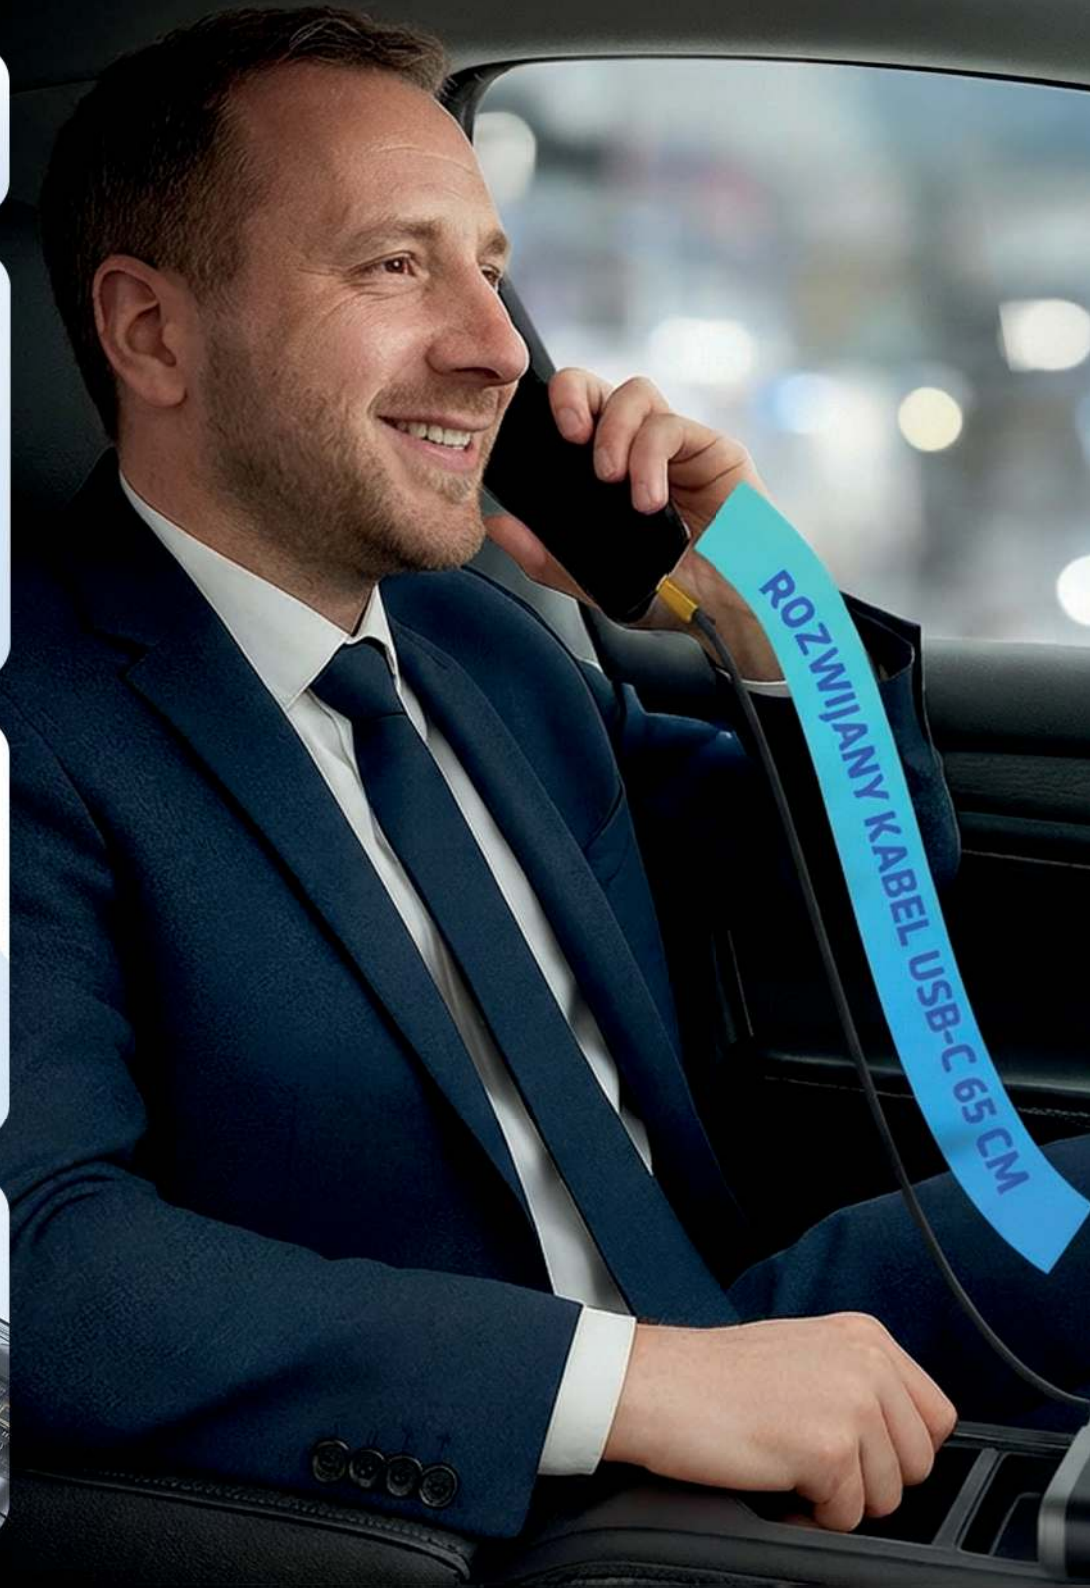

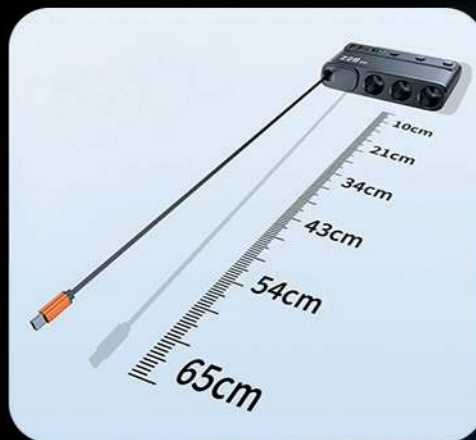

9 DEVICES

The R10 allows you to power up to 9 devices at once, making it an ideal solution for both drivers and passengers who use multiple accessories while traveling. Thanks to its efficient design, you can simultaneously connect a smartphone, tablet, navigation system, dash cam, and other in-car devices, while keeping everything organized and ensuring full functionality of all connected equipment.

USER CONVENIENCE

The R10 splitter from Xblitz has been designed with user comfort in mind. The 65 cm retractable USB-C cable allows for easy device connection without tangled wires or the need for additional cables. This solution helps keep the car interior organized and makes using the splitter convenient for both the driver and passengers.

3 BUTTONS, 3 CIGARETTE LIGHTER SOCKETS

The Xblitz R10 is equipped with three cigarette lighter sockets, each with its own dedicated control button. This allows you to easily turn individual sockets on or off without unplugging connected devices. The intuitive operation makes managing your devices simple and enhances convenience while using the splitter during your drive.

SAFE USE

The device has been designed to ensure safe and stable operation during everyday use. Built-in protection systems effectively safeguard both the splitter and connected devices against overload, overheating, and overvoltage. As a result, the R10 remains reliable even when powering multiple devices at the same time, providing greater comfort and peace of mind.

STABLE MOUNTING

The R10 splitter is equipped with a practical Velcro mount with double-sided adhesive tape, allowing for quick and stable placement of the device in a chosen location. This ensures the splitter stays securely in place while driving, while still allowing it to be easily detached and repositioned when needed. The Velcro solution enables tool-free installation and helps keep the vehicle interior neat and organized.

ESSENTIAL FOR EVERY JOURNEY

A device like the Xblitz R10 splitter is a practical companion on every trip when you need to charge multiple devices at the same time. It makes it easy to use smartphones, navigation systems, dash cams, and passengers' accessories by providing constant access to power without having to choose just one charging source. As a result, all essential devices stay ready for use, ensuring a smooth and comfortable drive.

COMPACT SIZE

Thanks to its small, ergonomic design, the splitter fits seamlessly into any vehicle interior. Its compact dimensions - 13 cm × 7.5 cm × 3.8 cm - make it easy to install in a convenient location while maintaining order and comfort without taking up excessive space. All ports and buttons remain easily accessible.
