PERFECT FOR YOUR SCOOTER

Xblitz iWay is the perfect choice for scooter users. Its compact size allows it to fit easily into your pocket, backpack, or handbag, and inflating a tire takes just moments. With Xblitz iWay, a flat tire will never ruin your plans again!

FAST AND EASY BICYCLE INFLATION

Xblitz iWay – your mobile bicycle repair shop in your pocket! Forget manual pumping – with Xblitz iWay, you'll be back on the road in no time. Just connect the nozzle, set the pressure, and press start. The pump does the rest – quickly, effortlessly, wherever you are. Perfect for every cycling adventure!

COMPACT SIZE

Xblitz iWay is designed with portability in mind. Its small dimensions make it easy to carry in a bike pouch, backpack, or handbag. Always within reach when you need it.

4 UNIVERSAL NOZZLES

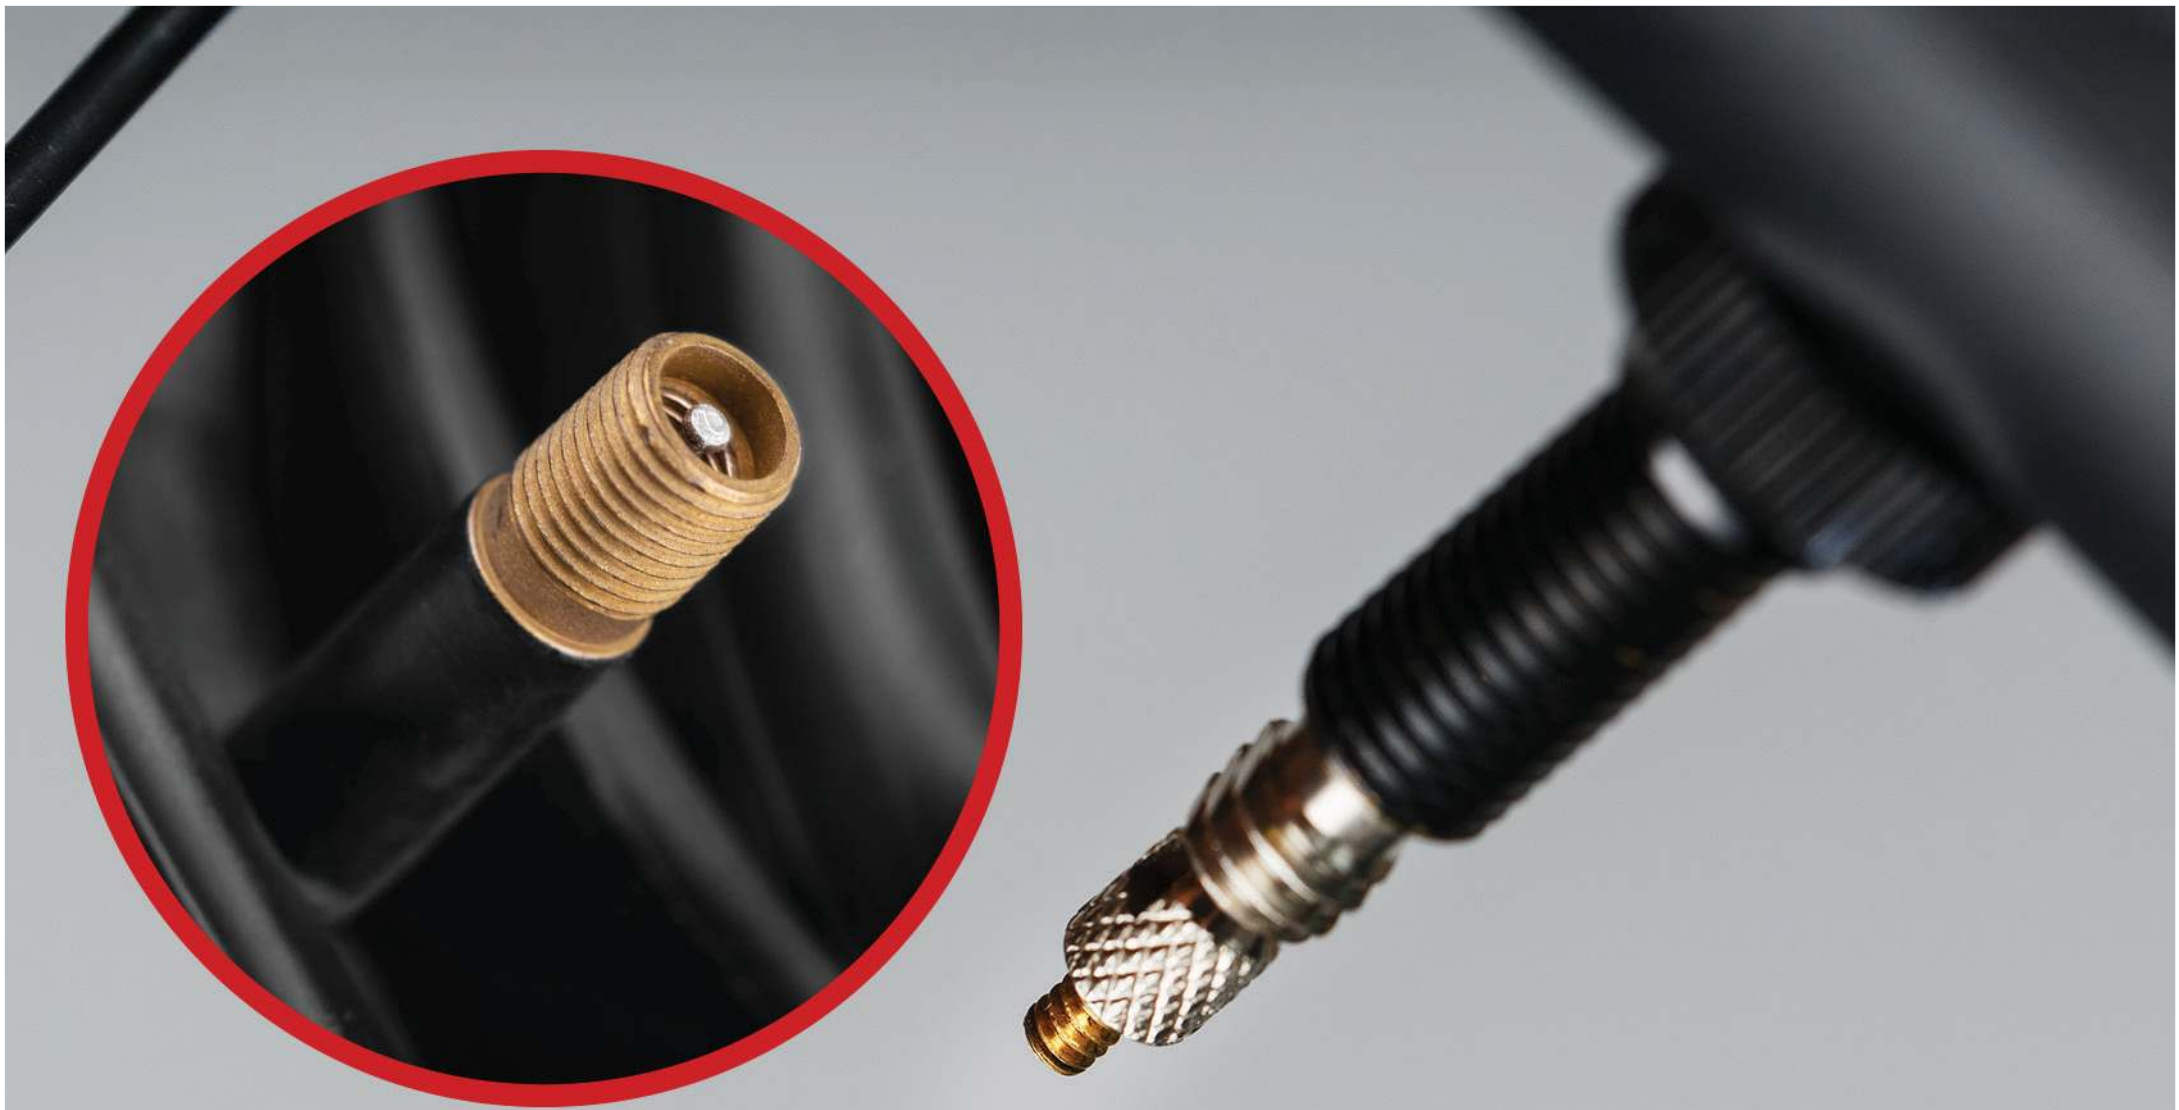

Xblitz iWay comes with four universal nozzles – ideal for inflating balls, bicycles, scooters, and more. Swapping nozzles is quick and convenient, allowing for versatile use over time without needing to buy extra accessories.

PRECISE PRESSURE MEASUREMENT

Equipped with a built-in electronic pressure gauge, Xblitz iWay delivers exceptionally accurate pressure readings – precise to 0.1 bar. You can set the exact pressure you need and rest assured every inflation ends with perfect results. A great solution when precision matters.

100 PSI 
100.20

COMPATIBILITY WITH VARIOUS VALVES

Included are two adapters for easy switching between Schrader and Presta valves. This makes the pump compatible with most bikes: city, MTB, fat bikes, racing, gravity, and electric. The additional nozzles also allow inflation of scooters and balls – one device, many uses.

HIGH-PERFORMANCE MOTOR

Featuring a high-efficiency chipset and powerful motor, the Xblitz iWay tire pump provides strong airflow at 120 PSI – twice as fast as competing models. It inflates a 700 x 23C bike tire in about 80 seconds, and going from 80 to 100 PSI takes only 40 seconds.

STOP MODE

Thanks to the Stop Mode function, Xblitz iWay automatically stops inflating when the set pressure is reached. No need to monitor it – the device does exactly what's needed.

LED LIGHT

The built-in LED light is useful for inflating at night or in low-light conditions. A practical feature that enhances usability in any situation – on the road, in the garage, or while camping.

TECHNICAL SPECIFICATIONS

MODEL: **XBLITZ** **iWay**

Battery:	Li-Ion 500mAh (7.4V/3.7Wh)
Output Pressure:	2~120 psi / 0.1~8.3 bar
Airflow:	15l/min
