EASY TO READ DISPLAY

Interpreting the results correctly is key to your safety. The built-in LCD display clearly shows the data and messages associated with the measurement, so you can easily check your level of sobriety.

DRIVE SAFELY

Remember, even a small glass of wine can make all the difference! Whether you are planning a cosy family dinner or a big wedding, keep a breathalyser in the glove compartment. You'll be protecting yourself and others.

READY TO USE

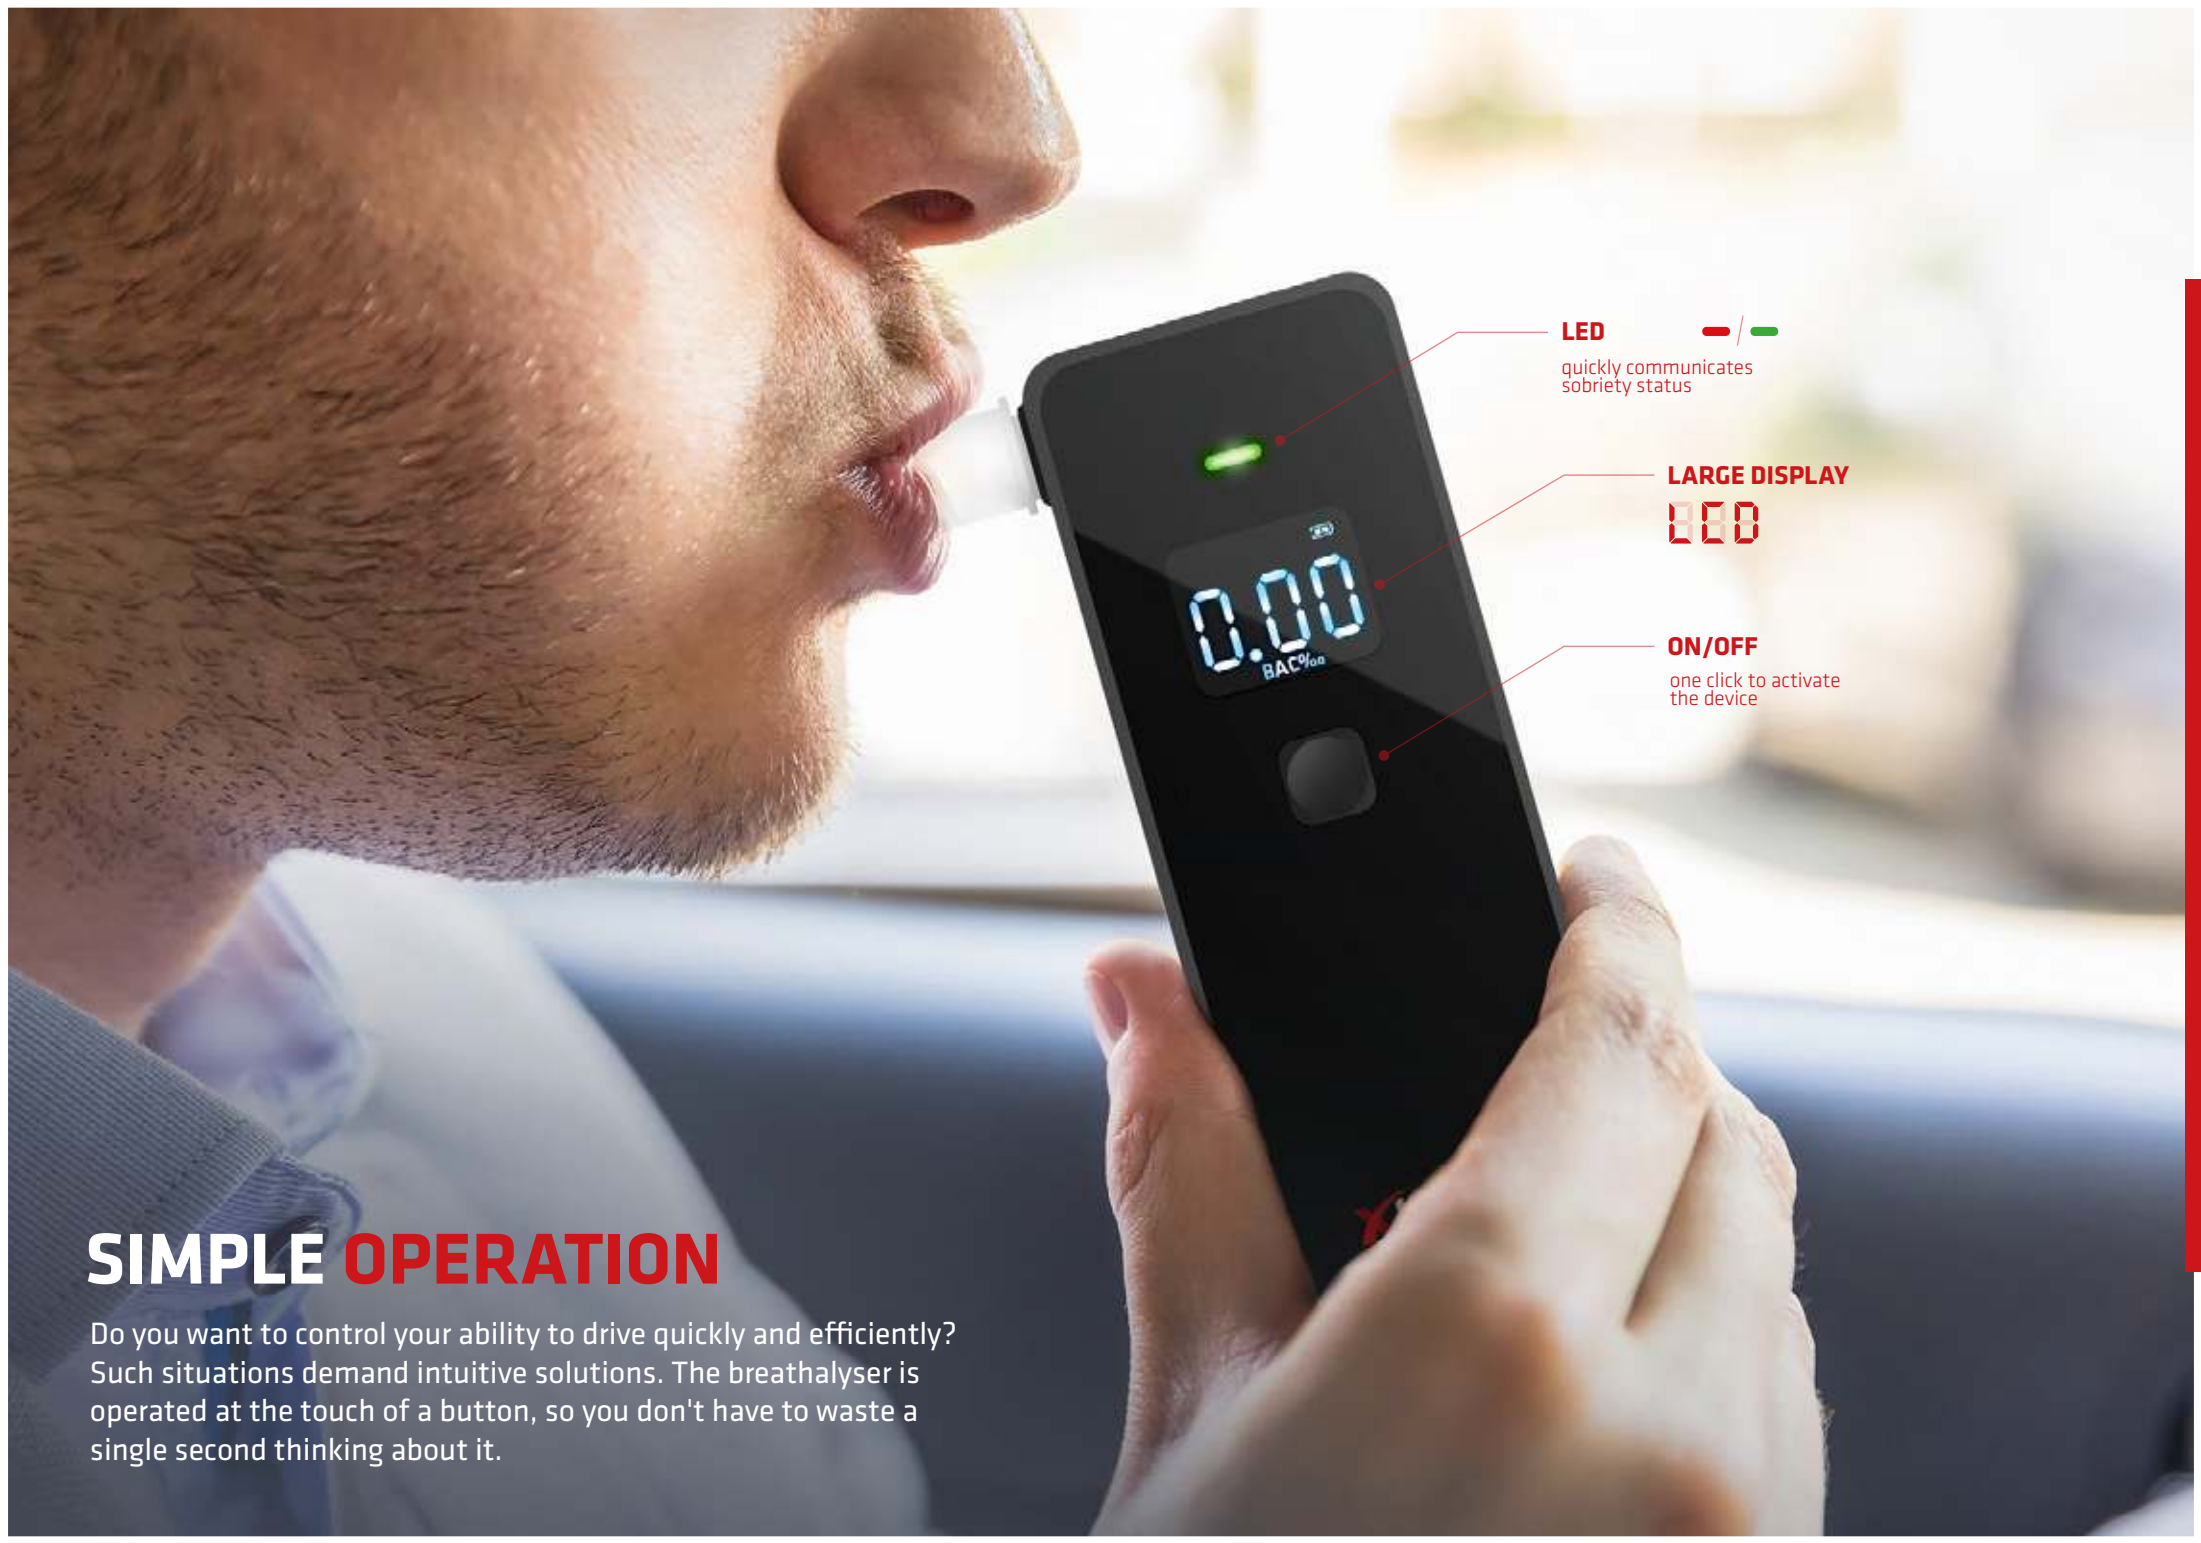

Be prepared for anything
- this is the motto of
every experienced driver.
In addition to your mobile
phone, sunglasses, car
charger and keys, it is
always a good idea to
have a breathalyser with
you. Complete with
mouthpiece and batteries,
it is an emergency kit for
all occasions.

SIMPLE OPERATION

Do you want to control your ability to drive quickly and efficiently? Such situations demand intuitive solutions. The breathalyser is operated at the touch of a button, so you don't have to waste a single second thinking about it.

12 MONTHS

FREE CALIBRATION

To ensure the reliability of your results, have your breathalyser regularly calibrated. As a Xblitz Spirit 2 user you have the option to have it calibrated for free for up to 12 months.

DESIGN

HIGH QUALITY

The Spirit 2 breathalyser is built to last. The classic black housing is made of durable plastic and effectively protects the sensor from mechanical damage.

A close-up photograph of a woman's face in profile, blowing into a handheld black breathalyzer device. The device has a white tube at the mouthpiece and a small green light on top. The digital display on the device shows '0.00' in large blue numbers, with 'BAC‰' written in smaller text below it. The woman's hand, with light purple nail polish, is holding the device. The background is a blurred view of a car's interior, including the steering wheel.

STATISTICS ON DRUNK DRIVERS

According to the Polish Police Headquarters, as many as **47,235 intoxicated drivers** were arrested in the first half of 2023.

Drivers under the influence of alcohol caused **554 road accidents** in the first six months of 2023, with **67 people killed and 653 injured**. In relation to the total number of accidents caused by drink-drivers, **intoxicated drivers accounted for 6.5%.** *

*Data provided by the Polish Press Agency

PENALTIES FOR DRINK-DRIVING* IN 2023

- For driving a motor vehicle while intoxicated, it is punishable:
1. Fine, restriction of liberty or imprisonment;
 2. Driving ban of 3 to 15 years;
 3. a pecuniary penalty of between PLN 5,000 and PLN 60,000 (to the Assistance Fund Victims and Post-Penitentiary Aid);
 4. 15 penalty points.

*Alcoholic state is understood to be between 0.2 and 0.5 per mille, while intoxicated state is more than 0.5 per mille in exhaled air.

ALWAYS ON HAND

The breathalyser can always be with you. All you have to do is put the Xblitz Spirit in your pocket or bag. Our advice? Put it in the glove compartment. That way, you won't forget to take it with you!

AN EVENT **WITH NO RISK**

You think there's no fun without risk? We think you can have just as much fun with a little common sense. Do not forget to take out the breathalyser at the end of the party and check that you are sober. Your friends can also take the test thanks to the mouthpieces included.
